## Note From the Editor

In this issue I thought I would remind you that August is the time of the Perseid meteor shower, one of the most intense showers of the year.

The peak (no pun intended) intensity is forecast to be 12<sup>th</sup> and 13<sup>th</sup> of August but this year the moon will be up during the night so the best time to view them might be in the week before or after. They are fairly uniform across the whole sky so best seen with a broad sky view.

So, if you fancy a late night (we still have long evenings) find a dark spot, lie back perhaps with a beer and company, adjust your eyes and watch the spectacle. Perhaps a good place might be the designated dark sky area close by at Parsley Hay.

For next month if you have any photos and/or stories you would like to share reflecting on the village in the heat wave I'll try and collate.

The cost will be £20 per ticket, a home cooked three course meal is included, you will be given a choice when you order your tickets.
